I am a Full-Stack Developer with over 2 years of experience in building web and mobile applications. I specialize in JavaScript, React, Node.js, Python and React Native. Skilled in designing scalable architectures, developing APIs, and ensuring seamless integrations, I focus on delivering high-performing, user-friendly products that solve real-world challenges efficiently.

Professional Experience

Full-Stack Developer

April 2023 - November 2024

Ignis - Kyiv, Ukraine

Optimized operations for a media buying company by focusing on reducing costs, time, and effort for routine tasks. My role involved automating various internal processes to enhance efficiency. Key contributions included developing automated landing page generation based on templates, creating a program for email campaigns, which later provided view statistics, and automating server health monitoring. These solutions streamlined workflows and significantly improved the company's productivity.

Frontend Developer

October 2022 - April 2023

Freelance

During the break between jobs, I worked as a freelancer, taking on various projects to refine my skills and deliver quality solutions for clients. Additionally, I dedicated time to developing personal projects, exploring new technologies, and enhancing my expertise in full-stack development.

Frontend Developer

April 2022 - October 2022

Content Mania - Kyiv, Ukraine

Developed websites and landing pages with a focus on "pixel-perfect" implementation, ensuring precise alignment with provided design mockups. Paid close attention to detail to deliver visually accurate and highly responsive web solutions that met both client and user expectations.

Education

Neoversity, Woolf

September 2024 - Present

Master's Degree

Master of Science: Software Engineering

GoIT

November 2021 - September 2022

Full-stack Front-End Developer

Kyiv National Economic University

September 2017 - June 2021

Bachelor's Degree

Faculty of Accounting and Management Taxation
